

Quick Guide Business Recorder

Connecting a Samson CM11B microphone to your Vidicode Business Recorder

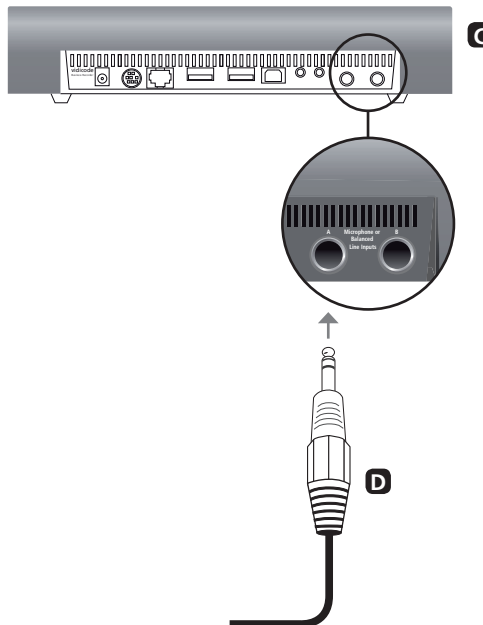

Step 1

Connect cable to Samson microphone

- Connect the 3-pin MXLR **A** to the microphone **B**

Step 2

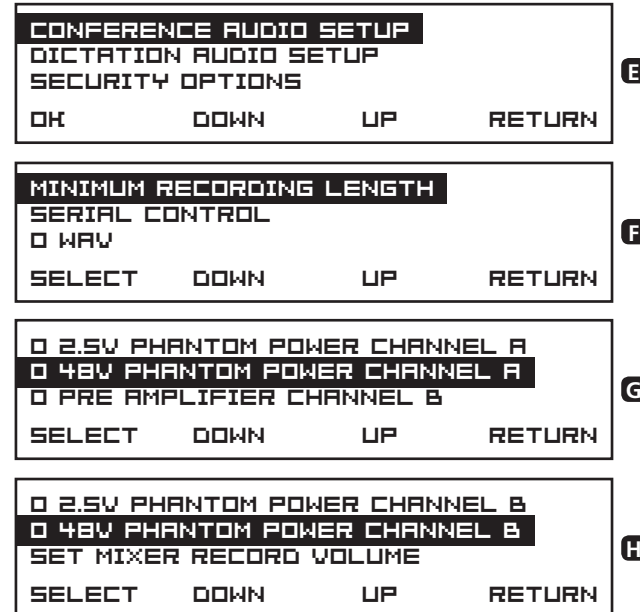

Connect cable to Business Recorder

- Connect the 1/4" (6mm) TRS plug **D** to port A of the Business Recorder **C**

If you connect two microphones plug the second one in port B.

Step 3

Enable Phantom Power on Business Recorder

- 3.1** Press the SETTINGS button on your Business Recorder
The display will show: **E**
- 3.2** Press OK to enter the Conference Audio Setup
The display will show: **F**
- 3.3** Press DOWN until you get to 48V Phantom Power Channel A
The display will show: **G**
- 3.4** Press SELECT
Press DOWN until you get to 48V Phantom Power Channel B
The display will show: **H**
- 3.5** Press SELECT
Press RETURN 3 times to go back to the main display.

 We have disabled the Phantom Power Supply to the microphones to avoid the risk of applying Phantom Power to a microphone that was not made for it. If you bought the recommended type of microphone, which requires Phantom Power, you must first enable it.
